Technical Data Sheet 975B and 922B

FOOD CONTACT STATEMENT

PRODUCTS:

600ml Trigger Spray Bottle in Natural HDPE Promens Ref: 4561/4601

750ml Trigger Spray Bottle in Natural HDPE Promens Ref: 4560/4602

Food Contact Status:

All materials used for the manufacture of the above components comply with the compositional requirements of Commission Regulation (EU) No 10/2011 (as amended) on plastic materials and articles intended to come into contact with food.

Promens manufactures these components using Good Manufacturing Practice in compliance with Commission Regulation (EC) No 2023/2006.

As these products are not specifically intended to come into contact with food, Promens has not carried out any migration testing to check compliance.

It is the responsibility of our customers to ensure that the components are suitable for the intended application and that they do not bring about an unacceptable change in the composition, or deterioration in characteristics of the contained product.

This data sheet has been created based on general information required by customers and data supplied by our manufacturers. The information given is to the best of our knowledge correct and will be updated when required by legislation or upon specific request. If further details are required please contact our Customer Services or your Contico Sales Manager. Due to the high demand for legislation information (WEEE, EEE, REACH, COSCH, Package and Waste, etc) and to conform to the parameters of ISO 9001, all relevant information can now be downloaded from the Contico web-site: www.conticospraychem.com.

Please let us know by e-mail if you require further product information and we will endeavour to supply/upload the information to our web-site.

If you order products via the web-site, we also offer you the facility to download your own Package & Waste statistics.

If you have any other questions, please do not hesitate to contact us.
