

**Introducing the latest revolution
in indoor window cleaning...**

Cleano

NEW!

Bucket-Free Indoor Window Cleaning System!

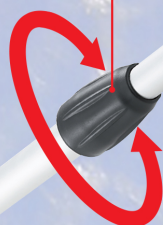

Even on the inside dirty and grimy windows harbour harmful bacteria. This remarkable Cleano system easily removes dirt, grime and bugs with the combined cleaning power of pure ionised water and microfibre without leaving residual particles or surface smears...leaving windows bright, clean, fresher and more hygienic.

- Easy to carry and use, a compact and entirely mechanical tool - no batteries or cables
- Replaces the need for a bucket, squeegee, window washer, telescopic poles and chemicals
- Environmentally friendly, eliminates chemical cost
- Reduces working time by up to 50% - higher productivity, simple to operate with minimal effort

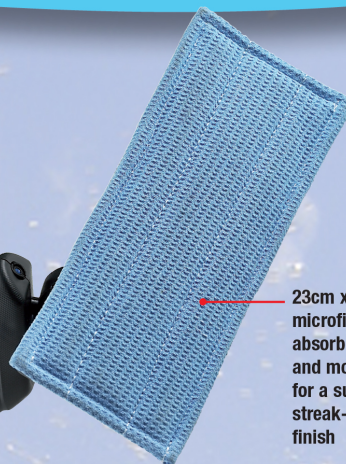

Sprays water onto the window and microfibre cleaning pad

Telescopic handle with twist action adjustability

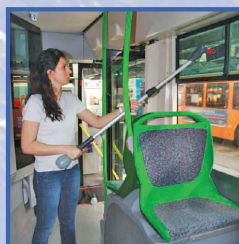

23cm x 10cm microfibre pad absorbs dirt and moisture for a superior streak-free finish

**Safely clean indoor
windows without
steps or ladders,
even in areas with
restricted access!**

400ml refillable
ionised water
container with
lever action
pump

In association with
IPC Pulex
